

Hello Pleasant Dale Park District Community,

Beginning November 13, construction is slated to begin as part of the Wolf Road, Cook County Infrastructure Improvement Project. Wolf Road will be closed to thru traffic south of Joliet Road while repairs are made over the Flagg Creek Bridge. The repairs are projected to take approximately 4 weeks to complete. We expect traffic delays along Wolf Road so we suggest utilizing County Line Road or Willow Springs Road and arriving at Walker Park from the south. We also recommend allowing additional travel time for any programs you're attending at the park district. Thank you for your patience and understanding.
